

Media Designer Digital and Print, in the area of Design and Technology

New technologies and new media create new jobs. Since 1 August 2007, there is the possibility of serving an apprenticeship as Media Designer/ in Digital and Print in the sector of Print & Media. The new field Design and Technology combines the previous fields Design, Technology and Operating and thus comprises the skills which had been carried out by Type Setters, "Reproherstellern" (Pre-Press elements such as reprotechnics and data processing), Reprographic Designers, Werbe – und Medienvorlagenhersteller (approximates Pre-press Specialist) and Photogravure Draft Persons before. Our printing sites mainly focus on a technically-oriented combination of text, image and graphic files for a printing product and on the processing of form cylinders in Galvanics, Engraving and Cylinder Correction

Requirements

- At least good CSE graduation
- Sound colour perception
- Spatial sense and technical grasp
- Readiness of mind concerning dealing with new media

Duration

3 years

Place of Education

Ahrensburg, Nuremberg
